

# Service Pontoons

## Technical Specification Sheet

ICMS has the in house expertise to provide innovative design solutions to clients that requires special services on their pontoons. We will work closely with the customer so that we can recommend a suitable pontoon type (leisure, heavy duty, continuous concrete or breakwater) and design the bespoke features so the pontoon can function as required.

### Uses

- Swimming Pools
- Pump Out Pontoons
- Hospitality Pontoons (Restaurants/Bars)
- Storage Pontoons
- Diesel Pontoons
- Platforms for service buildings
- Other - Challenge Us!

### Benefits

- ICMS have experience on a wide range of different service pontoons and will find a suitable solution for you.
- We will provide technical guidance to ensure the design adheres to best practise
- We will also liase with other suppliers/sub contractors to get the full picture and ensure the right end product is delivered
